

Download Print

- Uninstall the firefox running in your machine
- Right Click on download-print-one-click-installer will display a menu box, Click on Run as Administrator.
- Click Yes on the popup will start installation
- When Installation become successful, two icons will be appear in the desktop namely, POsibolt and Printer setup

Click on the **Printer Setup icon** will generate a popup with the following fields,

The image shows a screenshot of a Windows-style dialog box titled "Print Set up Panel". The dialog box contains several configuration options for printer setup:

- Is Direct Printing:** A dropdown menu currently set to "No".
- Download Directory:** A text input field containing the path "C:\POSIBOLT\Downloads".
- Enter File Type1:** A text input field containing "txt".
- Select Printer1:** A dropdown menu currently set to "Deskjet_1510".
- Enter File Type2:** A text input field containing "pdf".
- Select printer2:** A dropdown menu currently set to "Deskjet_1510".

At the bottom of the dialog box, there are two buttons: "ok" and "cancel".

is Direct printing	No
Download directory	Set the path as C:\POSIBOLT\Downloads
Enter filetype1	Enter the file type as txt, if default print format is used.Or pdf,if customized print format is being used, like jasper report.
Select Printer 1	Select the printer from the drop down, slip printer or bar-code printer.
Enter filetype 2	Enter the file type as txt, if default print format is used.Or pdf,if customized print format is being used, like jasper report.
Select Printer 2	Select the printer from the drop down, slip printer or bar-code printer.

Note : Ignore filetype2 and printer2, if only one printer is connected.

- Click OK, this will be added to the properties file in the script.

Click on the **Posibolt icon** from the desktop will open the browser

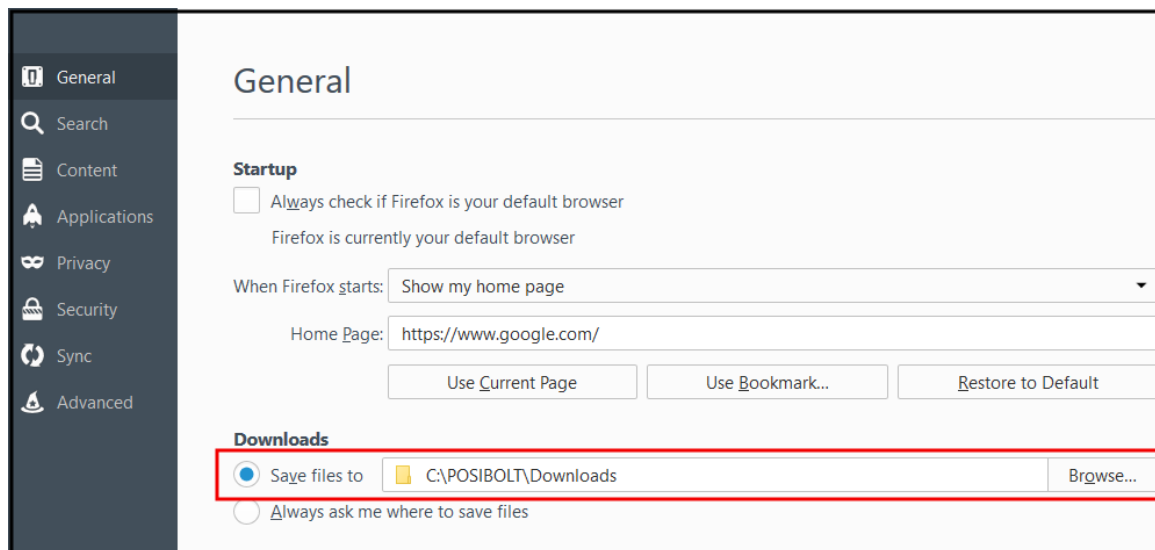

- Copy and paste this link <http://wikidownload.posibolt.org/Test%20Download.txt> to the Posibolt browser. Download and save.
- Click on the **Settings** button at the top-right corner of the browser.

It displays a drop-down menu. Click on **Options**. A new window Preferences will open up in Firefox.

In General Panel, under **Downloads**, select the option **Save file to** and Browse for this file path, **C:\POSIBOLT\Downloads**

In **Application** panel, look for the **text**(Open Document Text) and **pdf** applications and hit Enter.

1. To the right of each application is a drop-down menu that lists what you are allowed to do with a particular application.
2. It will display its default action - **Always Ask**. Change the action for text and pdf files as **Save File**.

Posibolt Configuration:

Now you can **Login to POSibolt**. Go to **Administration** → **Preference page**.

- Under Printing Tab; Enable the features
 - Enable printing
 - Download Print
 - Click on Save

Note: *Disable the feature Java Applet and Server Print when enable Download Print*

- After all settings are configured, **Restart the machine** .
